 2. Sharing of best practices in the field of program design, development and delivery is always welcome.
 3. Faculty exchange program for sharing of experience is encouraged but student exchange program in the case of ODL system is very difficult from the angle of its implementation.
 4. University is keen to take -up any opportunity for collaboration for the promotion of skill development programmes to boost employment opportunities'.
 5. University welcomes any imitative on jointly working in the fields of training, research and capacity building.
 6. UOU have a active OER cell engaged in the development of MOOCs and OERs. The University agrees to share its expertise in this field with the collaborating University.
 7. The University is looking forward for any such opportunity for sharing technology for effective e- learning, m-learning and online student support services including evaluation of the performance of learners.
- OSOU may send the draft of MOU for review to proceed further.
