Detailed Summary of academic content and academic interaction during the day

The I and II session were dedicated to the problems faced by women in the society. It mainly dealt with the legal policies made for women welfare and empowerment in India and World. It was a brainstorming interactive session in which gender specific issues viz. menopause, maternal health, sterilization of male etc were discussed openly. Both men and women equally participated in the interaction and brought their thoughts forwards. These issues are very important to be discussed in such platforms.

| Topic(s): Biodiversity  |  |
| Highlight: Human behaviour for sustainable biodiversity                                     |  |

Detailed Summary of academic content and academic interaction during the day

During the first session, Dr. LN Joshi discussed about comparative study between yogic and cardiac exercises. He told about nerve science in yoga and its usefulness for overall development of humans. He described the variation in Isotonic (skipping, cycling etc.) and Isometric (pushing a wall etc) movement and explained about the long term consequences of Yogic movements. 'Meru Shodhan Kriya', a technique of Yoga, was explained through various diagrams. He also discussed about various yogic asanas and that causes of disorder in the body are various disalignments.

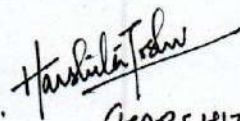

During the second session, Dr LN Joshi practically showed the technique of alignment using typical sticks made of silver and

Detailed Summary of academic content and academic interaction during the day

gold to find the disaligned and blocked nerves and transmit energy. This was followed by practically doing the metric type of asanas for cervical. This session was an interactive session in which all these asanas were done by the participants. Interaction about the bodytype depending upon the "Vata, pitta and kuff" and relevant diet added to everybody's information on ayurvedic and yogic science.

During the third session, Dr. Lalit Tewari discussed about biodiversity and its relation to health and environment. Giving examples from various parts of India, specially Uttarakhand, he described about various types of plant species and causes of their disappearance. He told about various types of biodiversity namely Genetic, species and ecosystem and discussed the role of economy and biodiversity.

During the fourth session, he discussed about the details of the rich biodiversity in Uttarakhand and Ethnobotany. Various causes of Greenhouse effect, phenology and threats to biodiversity were also discussed in the interactive session. Illuminating the importance of biodiversity, health care through traditional system, maintenance of water, air quality and climate stabilization were also discussed. The impact of human behaviour on biodiversity is vital, hence, the need of sustainable development was discussed to be the need of the hour.

After that 7<sup>th</sup> day Day Monitor Avijit Mandal came and read the activity report of previous (7<sup>th</sup>) day.

After that came here as a resource person Mr. D.S. Kotalia sir Training Coordinator Coep India, Hld.

Detailed Summary of academic content and academic interaction during the day

The day had been a positive and ~~stimulating~~ illuminative as well. We had Mr. D. S. Kotliya as guest-speaker who had enlightened us with his talks on 'Objectives of life' 'the art of living life'. During the course of deliberations Mr. Kotliya had mostly focused on the issue of 'who are we' or in other interpretation 'who am I?'. To overcome stress and mental fatigues, Mr. Kotliya advised the house to 'talk to yourself'.

In the second session, while dealing with the questions of the participants, Mr. Kotliya had highlighted about the importance of cleanliness in the cities. All the participants expressed their opinions and the second session thus wrapped up. The post lunch session was followed by micro teaching. Before the post lunch session, Mr. Arijit Mondal the previous day's monitor had placed a brief report on the programmes of 7th day.

Detailed Summary of academic content and academic interaction during the day

- (A) We had an Inaugural session by Dr Ritesh Sah in which we all introduced ourselves and was a good introductory session. Then there was the thought for the day "Deserve than desire" where we had this little refreshing discussion with Prof B. L. Sah and we enjoyed talking with and it was great fun.
- (B) Then we had our much needed tea break followed by another session on UGC-HRDC NAINITAL.
- (C) Post lunch we had one session again with DR B. L. SAH on challenges can be stepping stones or stumbling blocks it's just a matter of how you view them. Another one was on group Project Activity.
