

Monitoring Report – Bageshwar Region

Team reached bageshwar around 8.30 am on 29/8/11. The team started his work on the morning of 30/8/2011. The first task taken up by team was visiting the Regional centre of Bageshwar District established in the Governmnet Degree College, Bageshwar. The team reached the regional centre around 9.00 am and had a long discussion with the Regional Director, Dr. Bhupendra Tewari regarding the progress of the University various study centers located in the district and the and the views and attitudes of the students towards the various programmes offered by the university and handed over 100 prospectus as demanded by them, after a long discussion a plan was prepared with the help of Regional director to visit the various interiors areas of Bageshwar. Around 11 am team left the regional centre and proceeds towards the Kakpot which is around 32 km from Bageshwar, though due to heavy rain in the district road was not upto mark and its takes around 1.30 hrs to reach Kapkot, around 1.00 pm the team reached Kapot, after reaching Kakpot team visited the Degree college and met the Principal Dr. J.S. Rawat and the faculty members of the colleges and have a discussion regarding the courses offered by the University.

A positive approached have been seen among the principal and faculty members to open the University centers in the College, so that students of nearby areas get benefited by the professional courses offered by the university. The programmes suggested by the faculty members are Diploma course in fine arts, ghanit jyotish, programmes of allopathy and also short term courses of Home Science. The team left Kapkot to visit nearby areas Bharari which is around 2km from Kapkot. The team has a public awareness campaign in the village Bharari, were lot of enthusiasm and positive approached have been seen among the villagers and youth towards the courses and the methodology adopted by the university to provide quality education.

Team Member- Dr. MM Joshi, Dr. Gagan Singh, Dr. Deepak Pakiwal , Dr. Ghanshyam Joshi
