

ENROLLMENT REPORT

July 2024 Cycle

INTRODUCTION TO CYBER SECURITY

This MOOC is offered through the National MOOC Platform SWAYAM

Course Coordinator

Prof Jeetendra Pande

Background

The Massive Open Online Course (MOOC) titled "**Introduction to Cyber Security**" was launched on the SWAYAM portal in July 2019 by Prof. Jeetendra Pande. The course is designed to provide a foundational understanding of cyber security concepts, tools, and practices.

Over the course of 11 cycles, the course has surpassed **100,000 registrations**, demonstrating its popularity and relevance in the field of cyber security.

Table 1: Registration Overview by Cycle

| Cycle | Number of Enrollments | Course Link |
|---------------------|-----------------------|--------------------------------------|
| Cycle 1: July 2019 | 16,964 | Cycle 1 Course Link |
| Cycle 2: Jan 2020 | 8,813 | Cycle 2 Course Link |
| Cycle 3: July 2020 | 9,647 | Cycle 3 Course Link |
| Cycle 4: Jan 2021 | 15,856 | Cycle 4 Course Link |
| Cycle 5: July 2021 | 8,360 | Cycle 5 Course Link |
| Cycle 6: Jan 2022 | 10,440 | Cycle 6 Course Link |
| Cycle 7: July 2022 | 8,286 | Cycle 7 Course Link |
| Cycle 8: Jan 2023 | 5,118 | Cycle 8 Course Link |
| Cycle 9: July 2023 | 4,831 | Cycle 9 Course Link |
| Cycle 10: Jan 2024 | 11,004 | Cycle 10 Course Link |
| Cycle 11: July 2024 | 10,759 | Cycle 11 Course Link |
| Total | 1,10,078 | |

This course has consistently attracted a diverse group of learners from various backgrounds, including students, professionals, and educators. Over time, the course has evolved to include updated content and resources, ensuring that it remains relevant in the rapidly changing field of cyber security. For the January 2024 batch, the course has seen enrollments from a wide range of participants.

Demographics and Educational Background

Age Group Distribution

The age distribution of participants in the "Introduction to Cyber Security" course for the January 2024 batch is as follows:

- **13-20 years:** 4,818 participants
- **20-30 years:** 4,505 participants
- **30-40 years:** 812 participants
- **40-50 years:** 290 participants
- **50-60 years:** 75 participants
- **60-70 years:** 2 participants

- **70-80 years:** 1 participant
- **80-90 years:** 2 participants
- **90-100 years:** 1 participant
- **Less than 13 years:** 7 participants

This distribution shows that the majority of the participants are in the 13-30 age range, which is typical for MOOCs, as they often attract students and early-career professionals.

Figure 1: Age Group Distribution of Participants

The bar chart clearly illustrates that the majority of participants are concentrated in the younger age groups, particularly between 13-30 years. This demographic trend is typical for online courses, particularly in technical fields like cyber security.

Gender Distribution

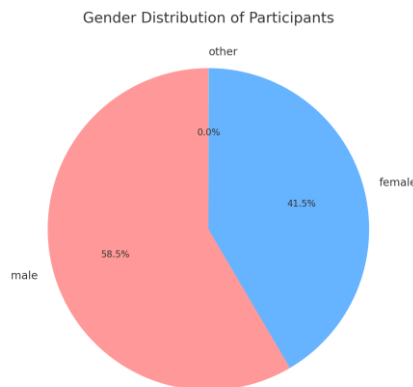

Figure 2: Gender Distribution of Participants

The pie chart shows that the gender distribution among participants is approximately 58% male and 42% female, with a negligible percentage of participants identifying as "Other."

This gender distribution suggests a relatively strong representation of females in a field that has traditionally been male-dominated, which is a positive indicator of inclusivity in the course.

Educational Qualification

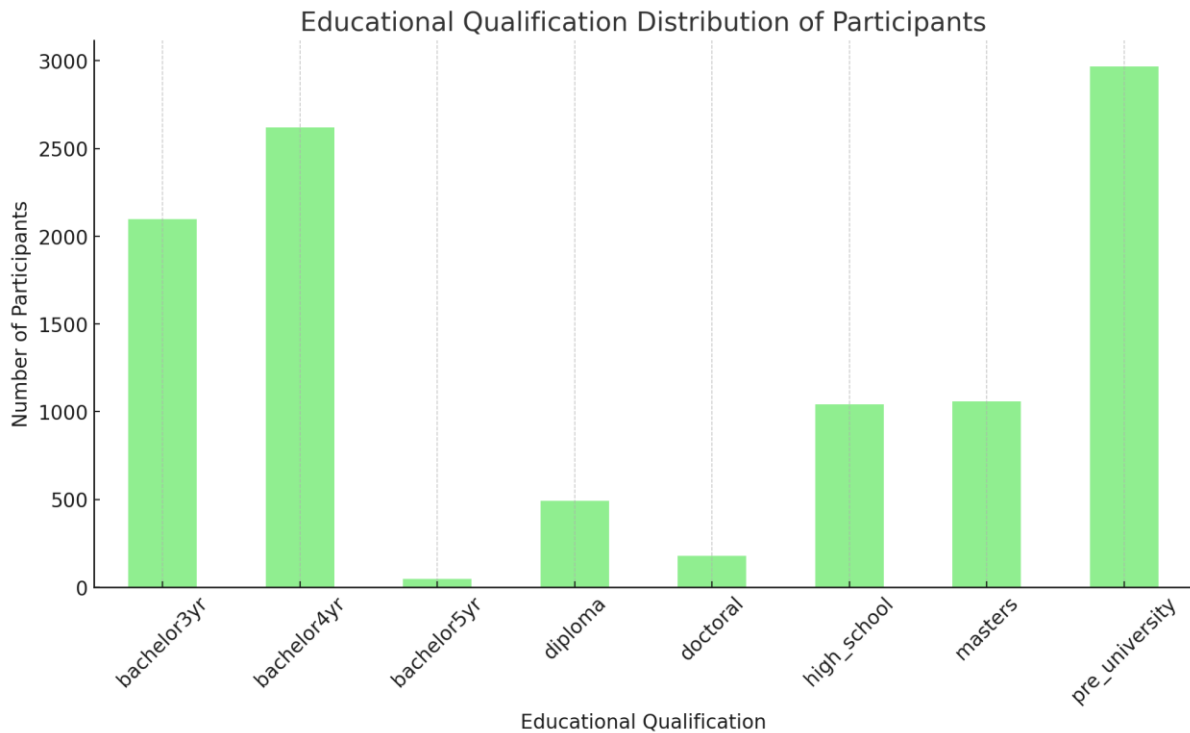

Figure 3: Educational Qualification Distribution of Participants

The bar chart illustrates that the largest groups of participants are those with pre-university and bachelor's degrees (both 3-year and 4-year programs). There's also a substantial number of participants with master's degrees, indicating that the course is appealing to both undergraduate students and those with advanced degrees.

Geographic and Institutional Analysis

The participants for the "Introduction to Cyber Security" course come from a wide range of countries, with a total of 65 different countries represented in the dataset. However, many of these countries have only one or a few participants.

The top 10 countries with the highest number of participants in the "Introduction to Cyber Security" course are:

1. **India (IN):** 10,231 participants
2. **Nigeria (NG):** 57 participants
3. **United States (US):** 32 participants
4. **Ghana (GH):** 18 participants
5. **Pakistan (PK):** 16 participants

6. **South Africa (ZA):** 13 participants
7. **Egypt (EG):** 10 participants
8. **Canada (CA):** 9 participants
9. **Nepal (NP):** 9 participants
10. **Germany (DE):** 8 participants

India is by far the most significant contributor, which is expected given that the course is offered through the SWAYAM platform, which primarily caters to an Indian audience.

State-Level Analysis for India

Since the majority of participants are from India, it would be insightful to analyze the distribution of participants across different states within India. The top 10 states in India with the highest number of participants enrolled in the "Introduction to Cyber Security" course are:

1. **Andhra Pradesh:** 2,267 participants
2. **Tamil Nadu:** 1,543 participants
3. **Maharashtra:** 1,279 participants
4. **Karnataka:** 1,227 participants
5. **Gujarat:** 745 participants
6. **Telangana:** 608 participants
7. **Kerala:** 307 participants
8. **Haryana:** 288 participants
9. **Uttar Pradesh:** 279 participants
10. **Delhi:** 268 participants

Andhra Pradesh leads with the highest number of participants, followed by Tamil Nadu and Maharashtra.

Figure 4: Top 10 Indian States by Number of Participants

The bar chart highlights that Andhra Pradesh, Tamil Nadu, and Maharashtra are the leading states in terms of participant enrollment for the "Introduction to Cyber Security" course. These states have a significant representation, which could be due to the presence of a large number of educational institutions and awareness about online courses in these regions.

Qualification, Degree, and Employer Insights

The distribution of degrees among the participants shows the following top 10 degree types:

1. **B.Tech (Bachelor of Technology):** 4,073 participants
2. **BE (Bachelor of Engineering):** 1,834 participants
3. **Arts and Humanities:** 115 participants
4. **Commerce and Management:** 91 participants
5. **Diploma:** 209 participants
6. **MS (Master of Science):** 87 participants
7. **M.Tech (Master of Technology):** 88 participants
8. **ME (Master of Engineering):** 10 participants
9. **Dental:** 1 participant
10. **Medical:** 1 participant

The majority of participants hold engineering degrees, particularly B.Tech and BE, which is consistent with the technical nature of the course. There are also participants from arts, commerce, and management backgrounds, though in smaller numbers.

Key Insights

- The majority of participants are in the 13-30 age range, with 4,818 participants in the 13-20 age group and 4,505 in the 20-30 age group.
- There is a higher number of male participants (58%) compared to female participants (42%). A negligible number identified as "Other."
- Most participants have either a pre-university or bachelor's degree. The largest groups are from pre-university (2,968 participants) and bachelor's programs (3-year and 4-year).
- India overwhelmingly dominates with 10,231 participants, followed by Nigeria (57) and the United States (32).
- Andhra Pradesh, Tamil Nadu, and Maharashtra are the top three states with the highest enrollment numbers.
- Most student participants are in their 2nd, 3rd, or 4th year of study.

- Engineering degrees, particularly B.Tech and BE, dominate the participant pool, with 4,073 participants holding a B.Tech degree.
- Participants primarily come from engineering backgrounds, with a significant number holding degrees like B.Tech and BE.
- Employer data is sparse, with no strong concentration of participants from any single employer.

The "Introduction to Cyber Security" course continues to attract a young, predominantly male audience with a strong representation from engineering disciplines. The majority of participants are students in their 2nd to 4th years of study. The course also has a broad geographic reach, though it is heavily concentrated in India, particularly in a few key states.

These insights suggest that the course is well-aligned with the interests of engineering students and early-career professionals, making it an important resource for those entering the field of cyber security. Further outreach could focus on increasing diversity in gender, geographic representation, and professional backgrounds.

APPENDIX

Table 2: Age Group Analysis

| Age Group | Number of Learners |
|--------------|--------------------|
| 13-20 | 4818 |
| 20-30 | 4505 |
| 30-40 | 812 |
| 40-50 | 290 |
| 50-60 | 75 |
| less_than_13 | 7 |
| 60-70 | 2 |
| 80-90 | 2 |
| 90-100 | 1 |
| 70-80 | 1 |

Table 3: Gender Analysis

| Gender | Number of Learners |
|--------|--------------------|
| male | 6147 |
| female | 4364 |

Introduction to Cyber Security

By Dr. Jeetendra Pande | Uttarakhand Open University, Haldwani

Learners enrolled: 10759

Internet has led to widespread and drastic changes in our lives. Due to its reach and coverage, more and more processes and activities in organizations large and small are shifting online. Banking and Communication sectors are just a couple of glaring examples of this development. However, the ease of use brought about by computers has brought with it a significant rise in malicious attacks on digital devices and software systems. With increased dependence on computers and Internet, organizations are constantly exposed to high levels of business, operational and strategic risks. Hence, it is a challenge for these organizations to protect their data and systems from unauthorized access. This foundation program is geared towards generating and enhancing awareness about cyber security challenges and the concepts of cyber security and cyber ethics among the stake holders to help them become responsible cyber citizens and participate safely and securely in the rapidly evolving information-age society. This course is in line with the directions of UGC to introduce an elementary course in cyber security at UG and PG level across all the Indian Universities/ Institutions. Thus, the course aims to address information gaps among people with respect to cyber security and can be used as an foundation course in cyber security across all the Indian Universities. The course content will contain recorded videos, which are based on the syllabus designed by the experts. All the participants, who are enrolled for the course, can take the course online. Also they can download the video/text material for later use. After the completion of each lecture, the students can clarify their doubts with the instructor, who is available online. At the end of the course, the students have an option to undergo an online test which is objective in nature. On successful completion of the exam, the student shall be provided with a certificate declaring the participation and successful completion of the course by the candidate as per the guidelines

Summary

Course Status : Ongoing
Course Type : Core
Duration : 12 weeks
Category : Computer Science and Engineering
Credit Points : 4
Level : Undergraduate
Start Date : 15 Jul 2024
End Date : 30 Nov 2024
Enrollment Ends : 31 Aug 2024
Exam Date : 07 Dec 2024 IST
Exam Shift : Shift-I

Note: This exam date is subject to change based on seat availability. You can check final exam date on your hall ticket.
